

Thanks for joining volunteers across the state in Clean California Community Days: Spring into Action Events

FACT: Cleaned areas *stay* clean!

Repeatedly picking up an area means it's less likely to get littered!
90% of litter will easily fit into your kit's bag!

PREPARE!

When you go out, take your kit with you! Line your cinch sack with the green liner, wear your vest and gloves, and don't pick up any suspicious items.

RECRUIT!

Enlist your friends, family, and neighbors. Make it social – the work will go faster and you'll be doing good, together!

DOCUMENT! SHARE & INSPIRE

Take lots of before, during & after photos during your cleanup. Share on your social media platforms and tag @OfficialCaltransHQ with the hashtag #CleanCA.

REPORT & CELEBRATE!

Record your results by scanning the QR code below each time you use your kit. Report the event location, time spent cleaning up, the distance cleaned, and the weight of the litter collected.

Record
your
results!

FACT: 88% of littered items are 4" or less
9 out of 10 Americans feel litter is a problem in their
community...so thank you!
